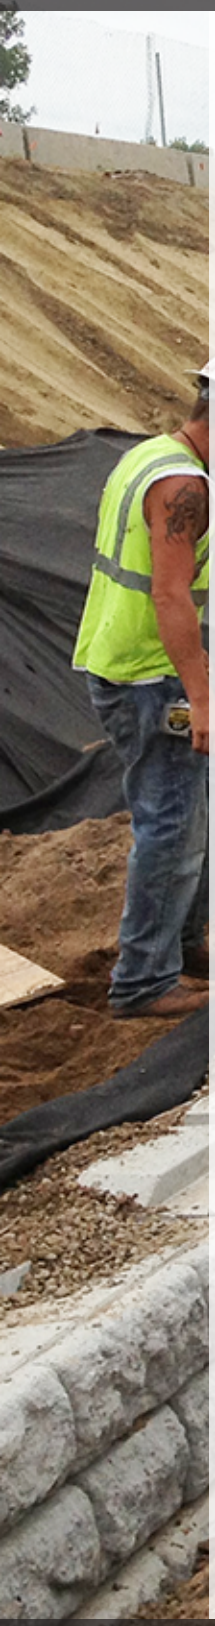
Making Lasting Impressions

952•492•5527



PROJECT: Chanhassen 101
LOCATION: Chanhassen, MN

TASK: To create a wall to hold up a road along with a traffic barricade

PROCUCTS USED: Cretex-Recon block

QUANTITIES: 17,000 sq ft of block

With very limited space to work in a unique design was needed to create a wall that would not only hold up a road and also create a traffic barricade for cars on top of the wall. Rosti Construction of Minnesota Inc. worked with other engineers and contractors to complete this project on time and on budget.
